TO ADVERTISE.
Advertising rates uniform and reasonable and made known on application at the office.

THE LEDGER is the largest daily paper printed in Mayville—costs the owner and publisher less than any other. It gives you more reading matter than any other. It is sold at the same price as any other Mayville paper—only one cent a copy or 25 cents a month, delivered by carrier, or sent by mail. If you are looking for the most for your money, you can't find it in THE LEDGER. Now is the time to take it—suppose you give it a month's trial.

Circulation More Than 1,000 Daily.

The Business Way!
The business way to advertise is to take space in your, take pains with your advertisements in making them attractive, and change them at least as often as once a month.

You must think there are reasons why you can't need to advertise. We have never seen that time.

Use the dull seasons for looking over your goods and running of that which is becoming out of style or un-fashionable, and giving bargains.

If you have space by the year, it costs you no more, and you can make it profitable by converting unsalable goods into money, and reinvesting the money in those things which are salable.

Where is That Banner Now?
Greenwald (Ind.) Banner—During the last campaign the Democrats of this city displayed banners in their processions bearing this inscription:

FOR YOUR CLEVELAND AND GET FOR YOUR WHEEL.
A liberal reward will be paid for that banner at this office, and no questions asked.

WHILE CLEVELAND is trying to find jobs for broken and corrupt dynasties he should not overlook the dethroned "reigning family" of Brooklyn.

The balance of trade in our favor for the month of October has been heralded by these Free-trade papers which last year used to claim that the balance of trade theory was all bosh.

An old soldier, while driving through Lisbon, Conn., recently saw the Stars and Stripes on a schoolhouse flying upside down, owing to the ignorance of those in charge. He stopped, went in, saw the teacher, explained how the colors should be displayed, and had the satisfaction of seeing the mistake corrected.

The condition of the country is well illustrated by the railroads which, during the three months ending September 30 this year, showed a falling off in gross earnings in 13 out of 20 leading roads, as compared with the corresponding period last year. In this connection it may be well to remember that there has been a change of Administration since last year.

This industrial revival which was to follow silver repeal has not struck Philadelphia. Of the 50,000 hands employed in the 500 textile factories a year ago only 17,000 are at work, and only ninety of the establishments are in operation. In August only seventy-five per cent. of the workmen in the city were at work and this number has increased to ninety per cent. All are waiting for the development of the Tariff policy of the Administration.

Chairman Wilson Explains the Tariff Schedule.

Sugar Was a Difficult Question to Deal With.

In the Tobacco Schedule Those Rates Which Would Bring the Most Revenue Were Sought—Cotton Manufactures Greatly Reduced.

WASHINGTON, Nov. 29.—Chairman Wilson, of the ways and means committee, in explaining the tariff schedule says:

Sugar has been a difficult subject to deal with. Raw sugar was transferred to the free list by the McKinley bill, because nearly all the taxes paid on it went to the public treasury. After much consideration it was decided to reduce to one-half the duty on refined sugar and to repeal the bounty one eighth each year, leaving raw sugar untaxed at present.

In the tobacco schedule those rates were sought which would bring most revenue. The present tax of \$2.75 per pound on wrapper leaf has been reduced to \$2.00 per pound, and \$2.50 per cent. ad valorem, to \$2.00 per pound and 25 per cent. It is believed to be the most profitable revenue and is higher than the law of 1901.

Live animals are put at 20 per cent. Barley is reduced from 35 cents per bushel to 20 per cent., which is about 12 cents. Broadstuffs, of which we are immense exporters, are made free, except when imported from countries putting duties on our like products, in which case it is 20 per cent.

First, vegetables, fruits, eggs and like food products are untaxed for the benefit of our own consumers, largely the working people of the cities. Salt in bulk is free; in packages the salt is free, but the covering dutiable at rates prescribed for like articles. The tariff on spirits is put at double the internal revenue rates on like spirits, and some slight reduction is made on still wines.

Wool is made free, dressed line of hemp and flax, 1 cent and 1½ cents, respectively. Burlaps and cotton and grain bagging are put at 15 per cent, when imported for covering of articles to be exported, are duty free. Wool is made free.

Cloths and dry goods are put at 40 per cent, clothing at 45 per cent., rates higher than the committee desired, but deemed temporarily necessary because our manufacturers have so long been excluded from two-thirds of the wool of the world, that they have to become accustomed to manufacturing with free wool.

A sliding scale is, therefore, added by which the rates in the woolen schedule are to come down five points with the lapse of the years. Carpets, an industry in which we will soon be independent of competition, are put at 35 per cent. for Axminsters, moquette and Wilton, 30 per cent. for Brussels, while common grades 50 down to 30 per cent.

The bill provides that the duty shall be reduced from wool on March 1 and "whenever a good is made of it." In the silk schedule the reduction of rates are smaller than in cotton or woolen fabrics. Sole leather is reduced from 40 per cent. to 25 per cent. Leather goods are classified according to material and length, and are uniformly rated at specific duties, which average about 25 per cent. on the commoner varieties and nearly 40 per cent. on the fine lamb and kid gloves.

In the schedule of sundries many articles, like hatters' plush, are put on the free list. The duty on cut diamonds, pearls and other precious stones is increased. Works of art, I am delighted to say, put back on the free list.

This is a rapid summary of the chief changes made by the proposed bill, and will give a satisfactory idea, I believe, of its general structure. It is estimated that it will reduce revenues on the basis of the importations of 1902, about \$50,000,000. Something more on the basis of 1903, with an immensely larger decrease of tax burdens to the American people.

The administrative law is repealed, with a few amendments suggested by experience of its operation. That law was chiefly prepared by Mr. Hewitt when he was in congress, and the changes proposed in our bill are to make it more effective, while at the same time softening some of its features added by the McKinley bill, that would treat the business of importing as an outlawry not entitled to the protection of the government.

Spanish Anarchists in Custody.
BARCELONA, Nov. 29.—The police now have 118 anarchists in custody charged with being concerned in the various dynamite outrages committed in Spain. Of this number eleven Spaniards, three Italians and one Frenchman are charged with being directly responsible for the dynamite-bomb outrages which caused such terrible loss of life in the Liceo theatre.

Princess Helena's Betrothal.
LONDON, Nov. 29.—The Times says that the betrothal of the czarowitz and Princess Marie of Greece, which was announced any day, Princess Helena is the daughter of the count of Paris, she is 29 years old.
